## Profile

I am a dedicated student pursuing a degree in computer engineering, currently in my 4th year of B.E. My passion lies in both front-end and back-end development. I have technical skills like NodeJS, Express JS, JS, Pug, and MongoDB for the backend. Java Script ,tailwind CSS front-end. I am a self-motivated and hardworking fresher seeking an opportunity to work in challenging environment to prove my skills and utilize my knowledge & intelligence in the growth of the organization. Strong understanding of DSA concepts and eagerness to learn new technologies. I am always ready to make meaningful contributions to any team.
